

7/20/2020 Update

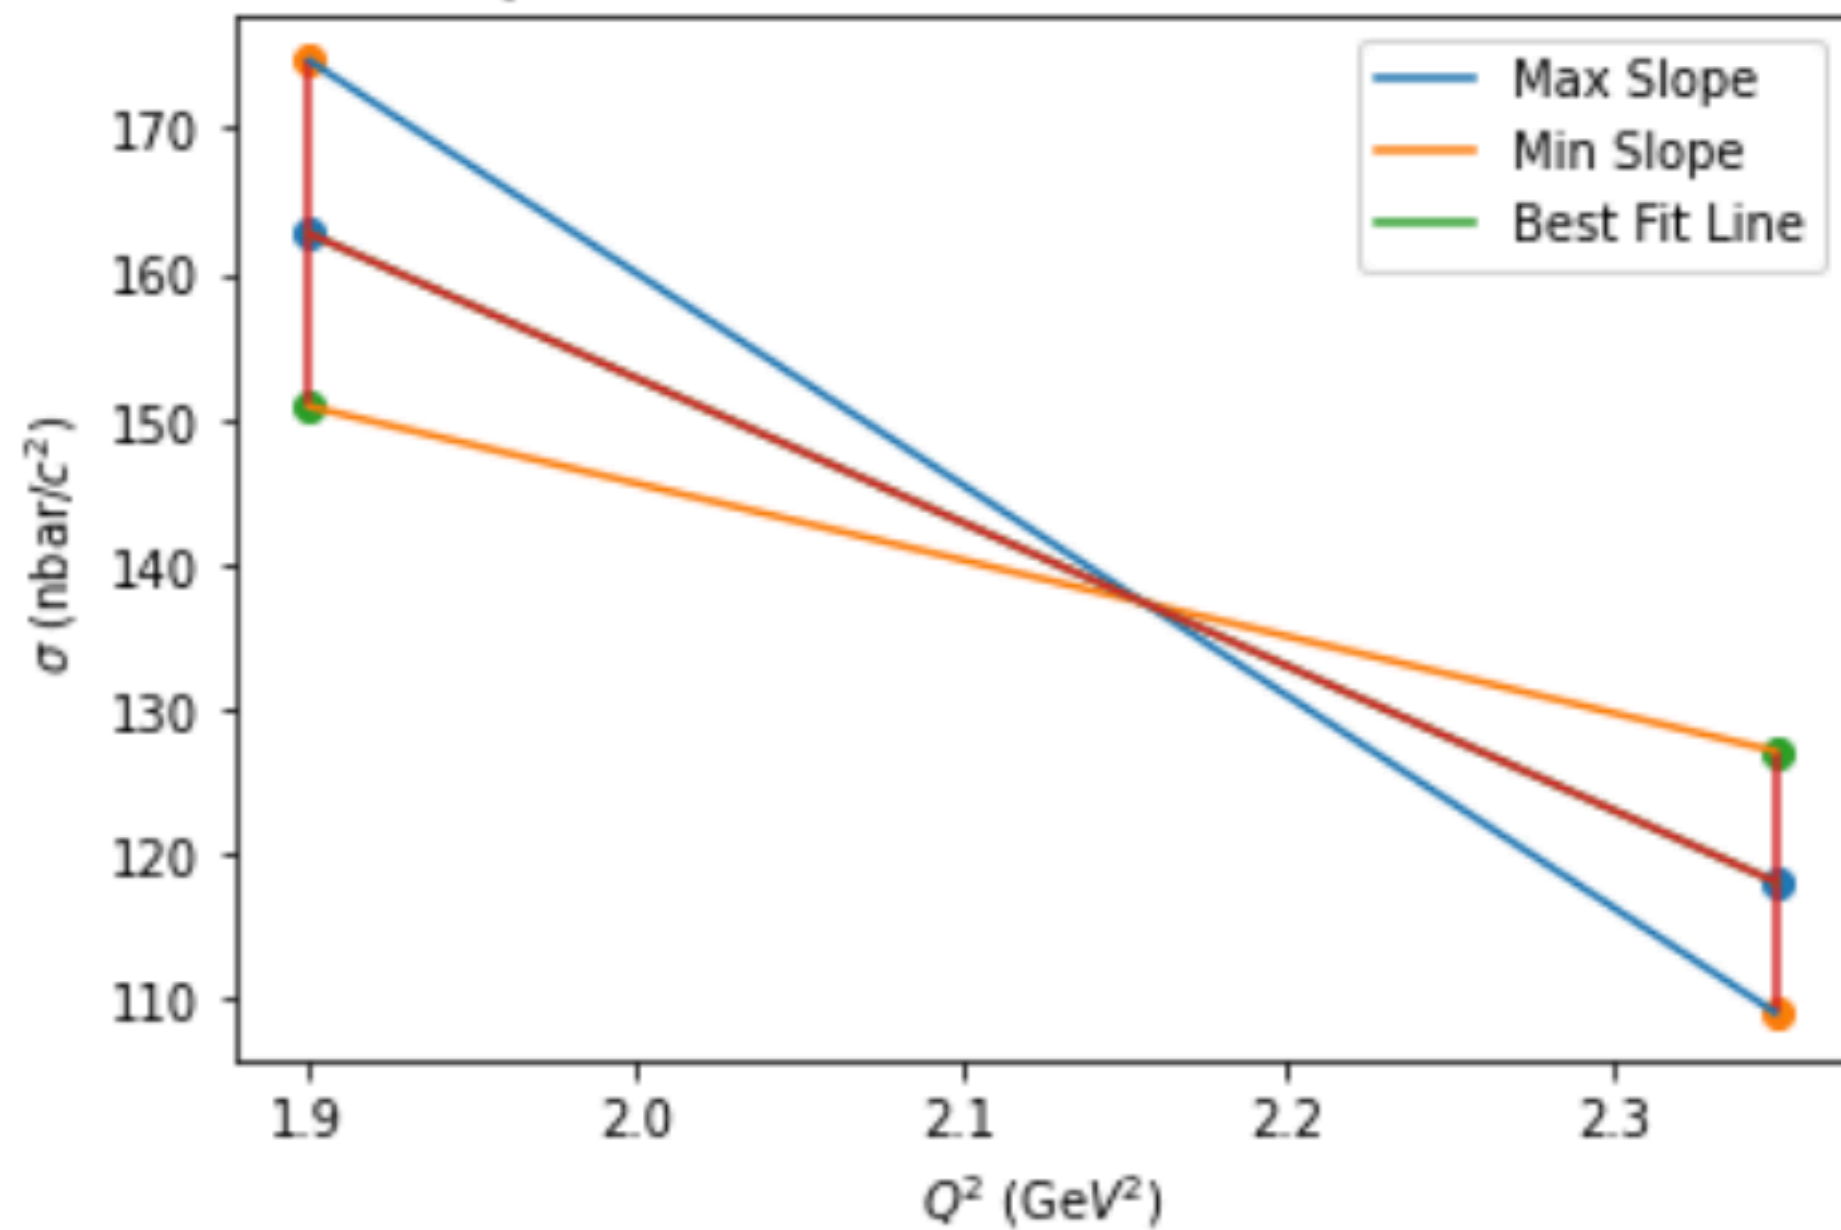

Mina Gorani

Kaon Data

x vs σ at $Q^2=1.6$, $W=2.2$, $t=0.5-0.6$, $x=0.3-0.5$

Q^2 vs σ at $W=2.2, t=0.5$

This Week:

- Continued researching on fitting, sig figs, and experimental method
- Began graphing and linearizing in excel, then transferring to Python

Next Week:

- Download and explore AutoDesk Inventor
- Continue linearization
- Strengthen Python skills
